Mr. Maust
Five Star Destiny
Elkhart, Indiana

Mr. Maust,

The Five Star Destiny program is an excellent program for children and would be very beneficial to the lives of many students at Roosevelt Elementary School.

This after-school program that promotes physical exercise, homework and character development will provide many of the necessary skills that our students need to succeed in school and life. Your program inspires children to set goals, and works to develop the skills to achieve them. The Five Star Destiny Program will enrich the lives of students at Roosevelt Elementary.

In addition, the partnerships you create with community organizations and businesses are necessary components for success for our school community.

We support your program and would like to see the program implemented at Roosevelt Elementary. We look forward to collaborating with you in the near future.

Sincerely,

Beth Bouchard, Assistant Principal

Richard Mendez. Principal
